New York, Dec. IZ-George Sutton is numificating confidence in his ability to take the 18-5 balkins billiand championship from William F. George H. Button, the handless expert, does not censider the practice method of his namesshe worthy of emulation or approval. Speaking of 'the said: 'George ha great player, but he does not properly fit himself for a match. I have told him so. He does not play against an opponent, but applies himself to what he calls one buil against another. Whenever he minuses he changes balls, and, because he invariably plays for position, he usually begins from a favorable sil the time. I told him he ought to prepare for matches by playing against opponents who were capable of making long runs and keeping him in a chair, getting cold or nervous, just as Hoppe would be likely to do in any inning when playing well. He said he wanted all the exercise he could get at the table. My snawer was—yeu will do better if you adapt yourself to match conditions."

Early in January, Hoppe will start Westward on an exhibition tour in which he will be assisted by "Young Jake" Schaefer. According to present arrangements, he will not go farther than St. Louis and will return about January 25. Four days later, he and Koji Yamana will exhibit at Providence in a 100-point game at 13.2.
